70

A technical drawing of a rectangular component. The top and bottom edges are solid black lines. The left and right edges are solid black lines, with the right edge ending in a vertical arrow pointing upwards. A horizontal dimension line with arrows at both ends spans the width of the rectangle, labeled '15' above the line. On the left side, a vertical dimension line with arrows at both ends is labeled $\phi 6_{-0,1}$ to its left. On the right side, a vertical dimension line with arrows at both ends is labeled $\phi 15$ to its right. The central area of the rectangle is white. On the left and right sides, there are two vertical sections each, filled with a diagonal hatching pattern. The top section is bounded by a solid line on the left and a dashed line on the right. The bottom section is bounded by a solid line on the left and a dashed line on the right.
